Long-wearing comfort:

Titan offers a pliable steel headband, padded t-bar, and swivel –mount speaker housing that is lightweight yet durable for all applications

The Best Transmission:

High quality speaker and ultra noise-canceling microphones distinguish the Titan as a leader in the industry by offering the unconditional audio reception and the elimination of almost all background noise.

Safety:

Acoustic shock protection for the receiver and surge protection for the microphone are standard.

Excellent Sound:

Paramount fidelity is realized through an over-sized 36mm speaker that enables faithful sound at both low and high frequency.

Easy Handling:

Titan's 270° rotating microphone boom is easily positioned for greater comfort and use.

Quick Disconnection Jack (Optional):

When the user wants to leave their desk without taking off the headset, they can merely disconnect it quickly and reconnect it later, or reconnect it at another telephone.
